

The virtual job fair was conducted through Handshake and was for students of all majors at Wichita State, high school seniors, and those from the surrounding communities. It provided a way for those who registered and attended the event to meet and chat with various potential employers that had part-time, full-time or summer positions available.

The virtual format allowed participants to:

- Interact with employers through video, audio, and chat.

- Never wait in line, ever! Pre-schedule 1:1 sessions with businesses ahead of the fair or on the day of the fair but don't wait too long as spaces could fill quickly.

- Make an impression. Bring your unique perspective to the table by asking great questions.
