

I. Departmental purpose and relationship to the University mission:

b. Program Mission:

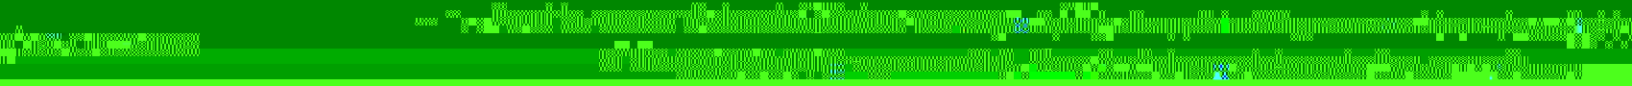

The mission of the department is to provide a high quality, experiential education for students in the field of health care.

The program is designed to provide students with the knowledge, skills, and attitudes necessary to become competent health care professionals.

Facilitate the development of students' professional identity and ethical reasoning.

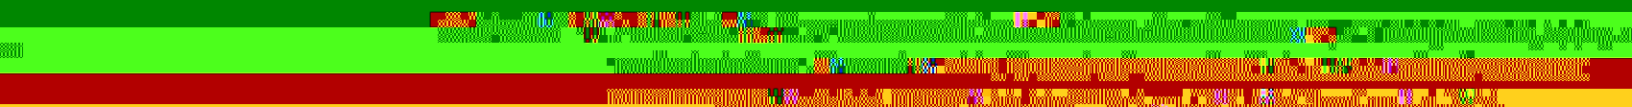

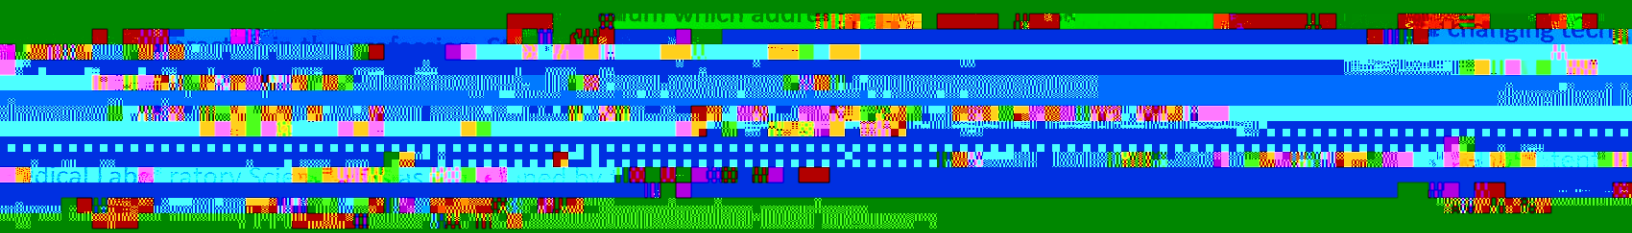

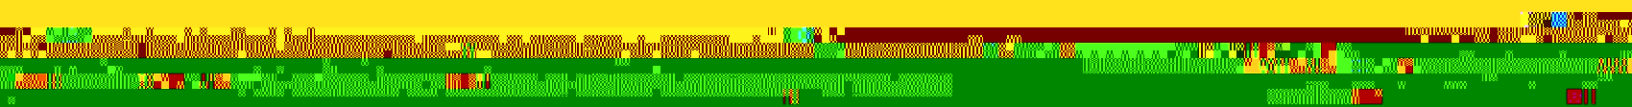

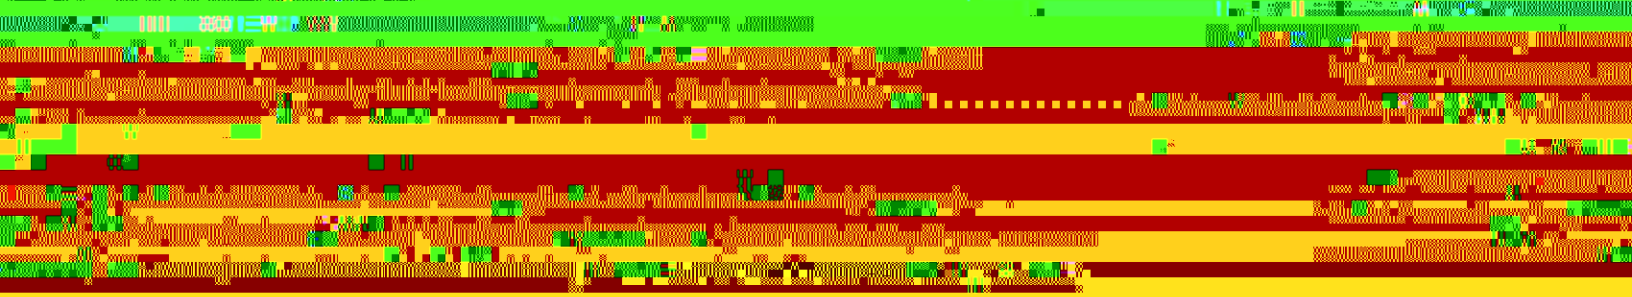

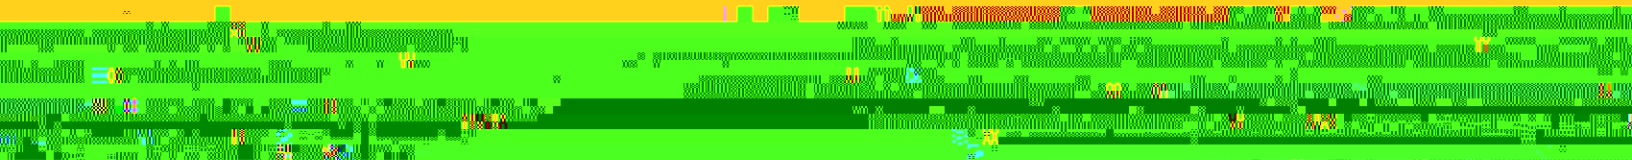

Students gain experience in the field of health care through clinical rotations at various medical centers in and out of state, including Dodge City, Salina and other centers.

assist students from their peers to connect with their own experiences with
