Management's Discussion and Analysis

Within the Statement of Net Position, assets and liabilities are further classified as current or non current. The current classification distinguishes those assets that are highly liquid and available for immediate and unrestricted use by the University and those liabilities likely to be due within the next twelve months.

Net Position is divided into three categories:

1. **Net Investment in Capital Assets** indicates the University's investment in property, plant and equipment less accumulated depreciation and amortization. Net Investment in Capital Assets is further divided into two subcategories: non-expendable restricted resources and expendable restricted resources. The corpus of non-expendable restricted resources is not available for expenditure. Expendable Restricted Net Position is available for expenditure by the University and is spent for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on the use of the assets.
3. **Unrestricted**
