Grammatically Speaking:

Conciseness

Conciseness is the quality of being brief and to the point. It is the ability to communicate your message in a clear and concise manner, without unnecessary words or phrases. Conciseness is an important skill in writing and speaking, as it helps to ensure that your audience understands your message quickly and easily.

Conciseness is not just about using fewer words; it is also about using the right words. Concise writing is clear, direct, and easy to read. It avoids unnecessary words and phrases, and focuses on the most important information. Concise writing is also more likely to be remembered and understood by your audience.
