Downloading the Panopto Recorder 3

What is Panopto

Panopto is a video capture and indexing tool that will allow you to make videos and record presentations for class assignments. With it, you can capture from a single source or multiple sources such as main screen capture, PowerPoint slides, a camera source, or a combination of these.

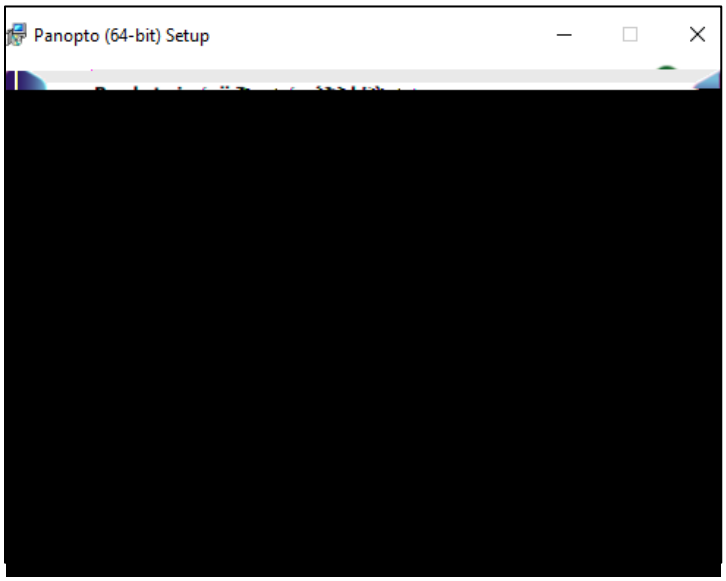
Downloading the Panopto Recorder

To download the Panopto recorder, start by opening a new browser tab.

Click “Install” and follow the installer guide. Please note, in order to make changes and install on your computer, you will need admin privileges. If you do not have admin privileges, please contact ITS (978-4357, helpdesk@wichita.edu).

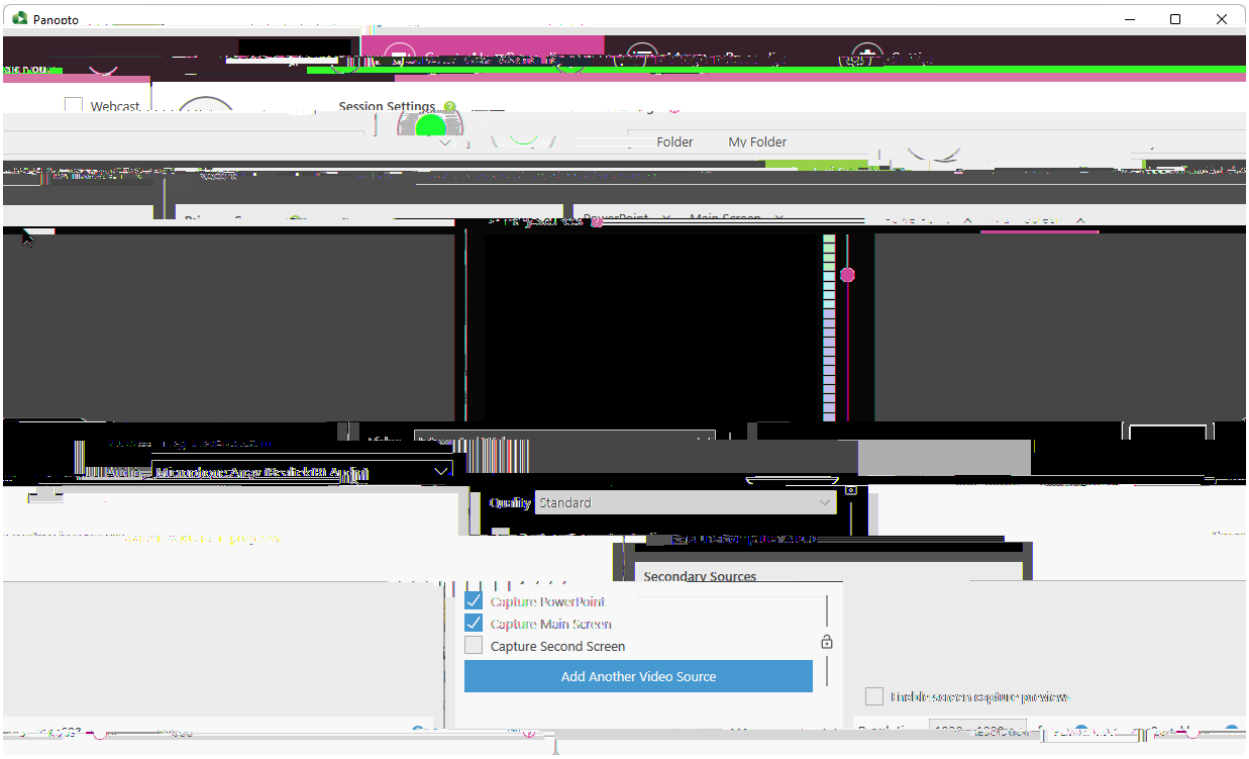


Signing in on a PC

A Panopto icon should now be located on your desktop. To access your Panopto Recorder, double-click this icon and sign-in using your Blackboard WSU credentials.

The Panopto “Tour” should automatically start. If you don’t wish to take the tour, click the grey “Skip Tour” button in the lower left of the Pop-Up Tour box.

Otherwise, click the blue “Next” button in the lower-right of the Pop-Up Tour box to continue on the step-by-step Panopto Tour.

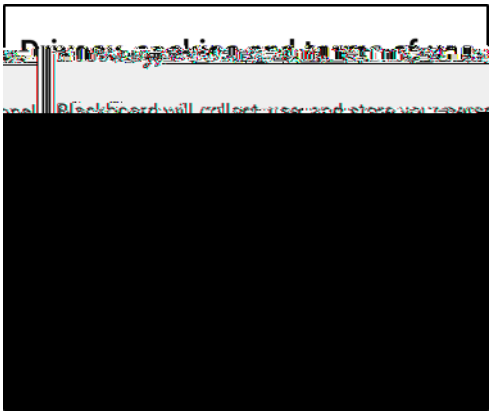


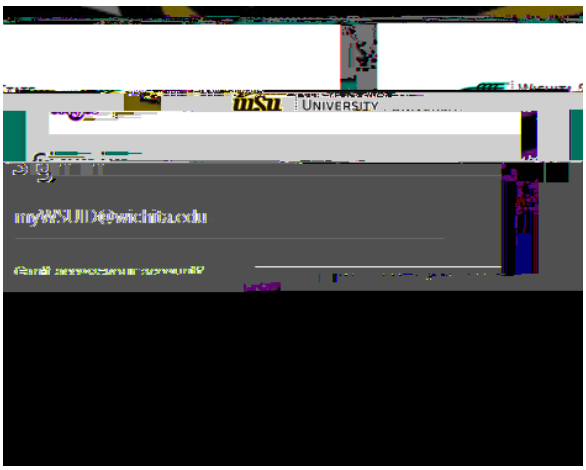
Installing on a Mac

After clicking “Download Panopto” in the ribbon, the Record a new session window will appear. Choose the right option for your system. Please note, in order to make changes and install on your computer, you will need admin privileges. If you do ca se Ô tomnalde3 c

6 W H S Select “Blackboard” from the dropdown menu, if it did not automatically appear. Click the “Sign-in” button.

6 W H S Click the “Agree and Continue” button to accept Panopto’s terms of use.





6 W H S Sign-in using your Blackboard credentials, and click the “Login” button.
