

Content Migration

Content Migration at LinkedIn our way to help you align to:

- Align to the standards you are required to teach
 - replace textbooks where possible
- Leverage core competencies pre-mapped for HP
 - align to the standards you are required to teach
- Level up staff and students with certifications and 1 units recognized continuing education
- Help students enhance their transferrable skill set using
 - career preparation competencies like NAACE

Getting Started

1 Identify your course learning objectives, course content, all relevant textbook needs, etc.

2 Check the [Academic Mapping Dashboard](#), to see if course mapping is available for your curriculum OR submit a custom mapping request.

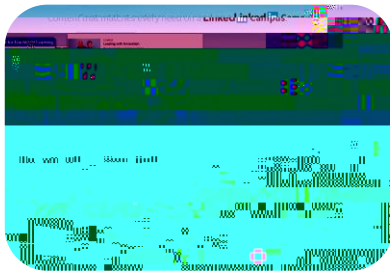

3 Build your custom [Learning Outcomes](#) directly on LiL*, or use organization-specific links to deep link within your Learner Management System.

reinvent the wheel.

prep, professional development, diversity, working from home, etc.
